

Satellite Sprayer/Foamer

Spraying and Foaming Options Where You Need Them

The Satellite Sprayer/Foamer delivers the economy and flexibility of the Satellite series in a versatile and convenient foaming, spraying and rinsing system.

The Satellite Sprayer/Foamer allows the user to choose either the foaming or spraying nozzles to apply a rich foam or spraying solution (e.g., sanitizer), then disengage the chemical supply for rinsing using the integrated switch-to-rinse toggle. Easily select either a wide-angle spraying pattern or powerful jet stream simply by rotating the rinse-pattern selector.

- Mobile: Take it anywhere! You don't need to attach it to a wall or buy a cart; it goes anywhere you can find water and carry your chemical container.
- Includes patented AccuPro pressure regulation technology: No more fluctuating dilution rates as water pressure varies; your dilution rate is always consistent across a wide range of pressures. And that means your product performs as it's supposed to!
- Unbeatable versatility; choose from either the foaming or spraying nozzles.

The Satellite Series Sprayer/Foamer Features

- Easily select a wide-angle spraying pattern or powerful jet stream simply by rotating the rinse-pattern selector.
- Handy On/Off trigger: Easy to operate with one hand
- Activate the Satellite with the On/Off trigger, then lock it in the “On” position – all with one hand!
- Overmolded handle: For safe, sure gripping.
- Adjustable velcro strap for container stability: Allows you to secure either an F-style or round bottle to the Satellite for better balance.
- Multiple dilution rates: Pick from 14 different dilution rates using the metering tips included with the Satellite. Additional tips available.
- Easy connections to water source: Use one of the optional connectors for quick and easy access to almost any water source.
