

DM-400/DM-700

Compact Warewash System with Big Benefits

The DM-400/DM-700 Warewashing Product Dispenser combines a detergent control and rinse pump in a miniaturized water-resistant enclosure. The electronic control board is protected by a gasketed enclosure for water resistance and maximum long-term reliability.

Features and Benefits

- Available in two-product (DM-400) or three-product (DM-700) cabinets to support both low and high temperature dish washers
- Save space in the kitchen with a compact, lightweight, micro-sized digital control
- Advanced versatile dispenser that operate in probe or probeless mode
- Compatible with most dishwasher styles
- Money saving rinse control
- Includes rack counter and unique De-Lime Mode, which allows for safe washing cleaning without detergent wastage
- Minimize installation time with pre-wired signal and conductivity lines

System Advantages

Advanced Design

Uses miniaturized electronics to provide powerful features in a small package. All service access is from the front; no side clearance is required.

Easy to Use

A digital readout allows simple three-button programming. The display shows the status of the dispenser during operation including product outages and other alarm conditions.

Reliability

The gasketed enclosure is highly water-resistant and the electronics are further protected within the enclosure.

Secure

The programming system of the DM-400/DM-700 is protected by a numeric pass code.

Saves Installation Time

Comes equipped with a factory-wired harness for all power and signal connections, so there is no need to open the case. The included wall bracket makes mounting efficient.

Versatile

It can accept 24 to 240 VAC input at 50 or 60 Hz. It can also control either powder or liquid detergents.

Saves Money

A special Rinse Saver feature prevents rinse additive wastage during fills of the washer. Digital electronics ensure accurate detergent control and minimize overuse.

Rack Counter

Includes a standard rack counter. This works with both single rack and continuous conveyor type machines.

Model	Description
DM-410	2-product dispenser; 1 pump
DM-411	2-product dispenser; 1 solenoid and 1 pump
DM-411 w/ super kit	2-product dispenser; 1 solenoid and 1 pump plus super kit
DM-420	2-product dispenser; 2 pumps
DM-420 w/ super kit	2-product dispenser; 2 pumps plus super kit
DM-711	3 product dispenser; 1 solenoid and 1 pump
DM-711 w/ super kit	3 product dispenser; 1 solenoid and 1 pump plus super kit

Model	Description
DM-720	3-product dispenser; 2 pumps
DM-720 w/ super kit	3-product dispenser; 2 pumps plus super kit
DM-721	3-product dispenser; 1 solenoid and 2 pumps
DM-721 w/ super kit	3-product dispenser; 1 solenoid and 2 pumps plus super kit
DM-730	3-product dispenser; 3 pumps
DM-730 w/ super kit	3-product dispenser; 3 pumps plus super kit
