Depletion Wand

Robust drum interface for efficient chemical uptake

Depletion wands simplify laundry installations by allowing quick connections between a single chemical drum and up to three laundry dispensers. In addition to limiting chemical spills and increasing the efficiency of replenishing product drums, the depletion wands come equipped with a float switch that can detect and alert users to costly out-of-product conditions. This reduces the risks of poor results and rewash.

- Simplify installs and the process of changing out empty chemical containers with a one-way depletion wand
- Detect costly out of product conditions with a built-in low level float sensor
- Durable, reliable design using injection moulded plastic
- Maximize operator safety utilizing an optional spring on the tube and strain relief to prevent operator tube disconnection while in use
- Prevent unwanted chemical backflow and maintain prime with umbrella-style non-return valves on each model
- Versatile design with multiple options to support global customer needs
- Flexible to handle harsh and common laundry chemicals with AFLAS or Viton foot valve

- Suitable for OPL (On-Premise Laundry) or laundromat applications with containers up to 300 L or 55 Gal
- Flexibility to connect to an EvoClean dispenser or standalone alarm unit a Multi-Washer System 3000, 6000, or 10000

Model numbers

Description	Diameter (mm)	Length (mm)	Drum Size (L) / (G)	Valve material
HYDDW10L380380D3AFF	38	380	10 / 2.5	Aflas
HYDDW20L380500D3AFF	38	500	20 / 5	Aflas
HYD-LDW-LM3EP	38	915	200 / 55	Viton

Optional parts list - for HYD-LDW-LM3EP only

Part Number	Description	Pack size
HYD10101082	Spring, Strain Relief, Depletion Wand	1
