

Depletion Wand

Robust drum interface for efficient chemical uptake

Depletion wands simplify laundry installations by allowing quick connections between a single chemical drum and up to three laundry dispensers. In addition to limiting chemical spills and increasing the efficiency of replenishing product drums, the depletion wands come equipped with a float switch that can detect and alert users to costly out-of-product conditions. This reduces the risks of poor results and rewash.

- Simplify installs and the process of changing out empty chemical containers with a 3-way depletion wand
- Detect costly out of product conditions with a built-in low level float sensor
- Durable, reliable design using injection moulded plastic
- Maximize operator safety utilizing a spring on each tube and strain relief to prevent operator tube disconnection while in use
- Prevent unwanted chemical backflow and maintain prime with umbrella-style non-return valves on each model
- Versatile design with multiple options to support global customer needs
- Flexible to handle harsh and common laundry chemicals with 2 material grade valve options; EPDM and Perfluoroelastomer

- Full range of sizes to fit different chemical containers, including 10L, 20L, 60L & 200L. Suitable for laundries of all sizes
- Flexibility to connect to an EvoClean dispenser or standalone alarm unit

Model numbers

Description	Diameter (mm)	Length (mm)	Drum Size (L) / (G)	Valve material
HYDDW10L380380D3AFF	38	380	10 / 2.5	AFLAS
HYDDW20L380500D3AFF	38	500	20 / 5	AFLAS
HYDDW20L0500D3EPF	48	500	20 / 5	EP
HYDDW20L0500D3PFF	48	500	20 / 5	PF
HYDDW60L0650D3EPF	48	650	60 / 16	EP
HYDDW60L0650D3PFF	48	650	60 / 16	PF
HYDDW200L1016D3EPF	48	1016	200 / 53	EP
HYDDW200L1016D3PFF	48	1016	200 / 53	PF

Spare parts list - 48mm models only

Part Number	Description	Pack size
HYD10099107	Umbrella valve cartridge kit (EPDM)	3
HYD10099108	Dust cap kit	5
