

RiteConnect

The Closed-Loop System that Stops Chemical Contact

Introducing the no-chemical-contact, closed-loop system for safe, reliable and accurate containment and dispensing of concentrated chemicals.

The RiteConnect System:

- Eliminates chemical contact
- Is spill-resistant
- Secures chemical container for safe, easy shipping
- Is cost effective
- Incorporates a self-venting valve
- Provides color coding options to reduce the risk of dispensing errors
- Prevents leaks
- Prevents accidental spillage
- Ensures employee safety
- Prevents chemical waste

Cartridge fits below bottle lid to ensure seal and prevent leakage

Additional Features

Drop Test

(Environmental Standards Section 2.1)

- The primary package, with the lid on, dropped from a height of 48 inches with 4 drops; flat-on-bottom, flat-on-top, flat-on-side and corner

Closed Dilution Control Systems Concentrate

(Environmental Standards Section 2.6)

- Products that are designed to be used in closed dilution control systems that are contained in spill-resistant packaging and cannot be practically accessed by users

Spill-Resistant Packaging

(Environmental Standards Section 2.33)

- Packaging that requires coupling to a specially designed device in order to dispense product

Closed Dilution Control Systems and Concentrates

(Environmental Standards Section 4.20)

- Products that meet the definition for closed dilution control systems (2.5) and concentrates (2.6) and the closed dilution control system and concentrate packaging requirements (5.4) may be evaluated as-used for skin and eye irritation (4.2) and acute toxicity (4.1), but must meet the closed dilution control concentrate labeling requirements in 6.5 and 6.7

General Specifications

Model Number*	Product Type	Description	Color
10094106	Insert	1/2 gallon F-Style, 500 each	White
10094110	Insert	1 gallon Round, 500 each	White
10094117	Insert	1 gallon F-Style, 500 each	White
10094184	Cap	Straight, 50 each	White
10094181	Cap	Right Angle, 50 each	White
