

Twist II Clean

Precision Injection for Agricultural Medication

The Twist II Clean filters have many unique and patented features and benefits, placing them in a class of their own.

- Simple 1/4" turn operation
- Filter element flushes completely clean in less than 20 sec.
- No need to turn off water to clean (eliminates air in system)
- Rugged design installs indoors or outdoors
- Stainless steel filter element lasts for years
- Never buy filter cartridges again!

Patented Reverse Flushing Action

When the top handle is turned, three events take place:

1. Flow direction is changed to inside-out
2. The filter element is lifted to open the bottom flush port
3. An inside-out backwash occurs, and the filter element is cleaned

Often Used

irrigation

vehicle care

industry

food
processing

horticulture
